[Despatch Abstract.]

Veterinary Hospital — Bellary — Manage-
ment — S.P.C.A — Permitted to Contin

Rev

Rev. 735 C

25.2.21

Bellary,

Dated 4th February 1921.

From

M.R.Ry. G. Seetharama Chetty Garu,

Honorary Secretary, S.P.C.A., Bellary.

To

The Chief Secretary to the Government of Madras,

Fort St. George, M A D R A S.

Through

The Collector of

B e l l a r y.

Sir,

p. 5 infra. I have the honour to forward herewith a copy of the resolution of the General Body of the S.P.C.A. (Bellary Branch) met at the Special General Meeting on 24-1-1921 to the effect that the Government be requested to reconsider (A) their order No. Press 2328, dated 27th September 1920 and to permit the management of the Hospital to continue as at present without being handed over to the Bellary Municipal Council.

2. That the Local Branch of the S.P.C.A., Bellary, have been successfully maintaining the Veterinary Hospital at Bellary for the last 16 years. This is the only self-supporting institution of the kind in the whole Presidency as the Society has been depending mainly upon the subscription of its Members, donations from the General Public, Fines collected in Courts on S.P.C.A. cases, contributions from the Local Bodies and a Grant of only Rs. 360 a year from the Government.

see G.O. p. 2 No. 186 - (A) 11-1-18

3. That curiously enough although there was absolutely no cause for the complaint in the matter of the efficient

working of the Hospital or its thorough and up-to-date equipment, there were vigorous attempts being made by the Superintendent, Civil Veterinary Department, Madras, to force the local branch of the S.P.C.A., Bellary to hand over the management of the Hospital to the Municipal Council, Bellary.

4. That a reference to the Annual Report of the working of the Local Branch of the S.P.C.A., Bellary for the year 1919-20 (a copy of which is herewith appended) will clearly convince the practical good work that was turned out by the Hospital and the meagre help it received from the Local Bodies. The Hospital treats free of all charges of medicine and treatment of the animals belonging to the ryots and the poor people of the district and also of the poor people of the Bellary Municipality. The contribution of the District Board for the year 1919-20 was Rs. 952-2-9 which works up into Rs. 79-5-6 nearly per mensem and the Municipal grant was Rs. 500 a year which works up to Rs. 41-10-8 per mensem. The Government grant was only Rs. 360 which works up to Rs. 30 a month for which we give free treatment and medicine to Government cattle, etc. The subscriptions collected ~~xxxx~~ from private bodies amount to Rs. 643/- during the said year, and the Magisterial fines that were collected were Rs. 428-8-0. Besides the Hospital had an income from other sources of nearly Rs. 1000/- such as Medicines and treatment charges from the well-to-do non-subscribing public. The expenses of the Hospital amounted to Rs. 225 per mensem and the income was also about the same sum. Thus it is clear that the contribution made by the District Board, the Municipality and the Government in lieu of the free treatment that is given as mentioned above is very meagre. There is no case made out for necessitating the transfer of the management from the S.P.C.A. to the Municipality. The fines

levied in the S.P.C.A. Cases are equitably to be paid to the S.P.C.A. as the S.P.C.A. maintains an establishment of its own at a cost of Rs. 442-10-0 per year. That on a consideration of the above facts the General Bdy of the S.P.C.A. of Bellary have come to the conclusion that there will be very little advantage in the transfer of the management to the Municipality. The S.P.C.A. Bellary has at no time given cause for complaint by the C.V.D. or caused it any anxiety at any time regarding its efficiency or upkeep. That this Hospital is the only one privately and independently managed institution ought not to be made the ground of complaint against it and a reason for its transfer to the Municipality.

5. The transfer of the management would necessitate the winding up of the S.P.C.A. here which is doing such an efficient and good work by purely private management which is a matter which deserves encouragement at the hands of Government.

6. The Municipal Council of Bellary, the General Body fears, will not equally well-manage the Hospital as it has got many of its own duties and responsibilities and may not likely to pay the required attention for its proper up-keep. The Hospital may lapse into undesirable conditions and lose its present standard of usefulness. The efficient working of the Hospital as at present has been testified to by the High Officials of Government and other distinguished visitors of the Hospital. Even as regards the medical help, the Hospital is in charge of a Veterinary Surgeon who is a Government Subordinate whose services are lent to the Society by the C.V. Department.

7. In the matter of the efficiency of the buildings they reach the standard required except in the matter of

the stalls which have thatched roof instead of pukha roofing. For meeting the expenses of putting a pukha roof the Society applied to the Government for a grant and the Government while they refused at first in their G.O.No. 2820 Misc. dated 14-12-1916, later on accepted to contribute one half of the cost of the proposed improvements of the Hospital, if the Society could find money for the other half, on a Resolution brought forward in the Madras Legislative Council by the Hon. Mr. P. Siva Rao in 1917, The Society has now spent some money about Rs. 600 towards improving the buildings in this month and the Society is now in a position to collect the required amount from private donations of the generous public. The transfer of the management at this juncture to the Municipality may cause their withdrawal from contribution and once the management is transferred to the Municipality the private subscriptions and donations will also cease.

Under the above circumstances, therefore, the General Body of the S.P.C.A., Bellary most humbly pray that the Government be pleased to reconsider their order No. 2328, dated 27-9-1920 and leave the management of the Hospital as at present in the hands of the S.P.C.A. without transferring it to the Municipality. The handing over of the management to the Municipality is deferred pending the disposal of this petition.

Encl: 2.

I have the honour to be,

Sir,

Your most obedient servant,

Hon: Secretary.

Copy of the Proceedings of a Special General Meeting of the Members of the S.P.C.A. Hospital held at the Hospital Premises, Bellary, on Monday the 24th January 1921 at 5 P.M.

Present 19 Members.

A. F. G. Moscardi Esquire, President, in the Chair.

Resolved that the Government be requested to reconsider their order No. Press. 2328, dated the 27th September 1920, and to permit the management of the Hospital to continue as at present.

Carried unanimously.

(Sd) A.F.G. Moscardi,
President.
24-1-1921.

THE FIFTEENTH ANNUAL REPORT OF THE

BELLARY BRANCH SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS

FOR THE YEAR 1919—20

He prayeth well who loveth well
Both man and bird, beast:
He prayeth best who loveth best,
All things both great and small
For the dear God who loveth us
He made and loveth all—COLERIDGE.

PRINTED AT THE
RAMA VILASA PRESS, BELLARY.

1920.

"A righteous man regardeth the life of his beast"

"Let no twice-born man whose mind is improved "by learning, hurt animals without the sanction of Scripture "even though in pressing distress whether he lives in his "own house, or in that of his preceptor, or in a forest

"He who injures no animated creature shall attain "without hardship whatever he thinks of, whatever he "strives for, whatever he fixes his mind on,"—*Institutes of Manu.*

"When you dismount from a horse, look after his grain and grass, and never beat him on the face nor overload him."

"When you are on a journey, see to your animal's grass and grain before your own food.

"Huzruth Imam Zainool Abidin made twenty pilgrimages to Mecca on one camel, but never beat him" *Hadies Mahamad.*

"The quality of mercy is not stained,
It droppeth as the gentle rain from heaven
Upon the place beneath; it is twice blest,
It blesseth him that gives and him that takes"

SHAKESPEARE.

REPORT FOR 1919-20.

The society has completed the fifteenth year of its useful existence. The officers of the society continued to work with their usual zeal and energy. The usefulness of the society and its hospital is well appreciated by the public. Animals continue to come for treatment from long distances.

2. *Financial.* A statement of receipts and charges for the year 1919–20 is given in Appendix A. The receipts amounted to Rs. 4391–11–5 as against Rs. 4210–6–11 in the previous year The charges for the year were Rs. 3143–12–4 as against Rs. 3410–0–8 in the previous year.

3. *Members.* The year opened, with 91 members, 21 new members joined the society and 19 members withdrew as they had to leave the station. The amount of subscriptions realised during the year was 643–0–0 as against Rs. 644–0–0 last year. Vide Appendix D. The fall may be attributed to the removal of several Subscribers who were in long arrears.

4. *Work.* 136 cases of cruelty to animals were detected during the year against 125 cases in the previous year. One of the two agents of the society left the service and no substitute was appointed. Therefore the society was working with one agent.

Attempts are being made to find a suitable man for the vacancy. Out of the 136 cases detected, 11 cases were let off with a warning. The remaining 123 cases ended in conviction and two cases remained undisposed. The fines levied on the cases of cruelty convicted during year amounted to Rs. 428–8–0. This amount will be paid to the society during the current year. Appendix B gives the analysis of convictions.

5. *Hospital.* During the year under report 158 animals were admitted as in-patients in the hospital against 127 in the previous year, and there were 811 out-patients against 440 treated last year. In addition to this 22 cases were admitted for castration and 44 cases were supplied with medicines without ing brought to the hospital. Details of the cases treated he hospital and the results of the treatment are given in Appendix C.

6. The thatched roofings and flooring at various wards have been repaired. The hospital building proper inclusive of the quarters, of the Veterinary Officer needs repair being leaky in several places. The water pump and the well attached to the hospital and the iron reservoir for storing water required renewal. The question of transfer of management of the hospital to the local bodies is still under correspondence.

The existing accommodation for in-patients is not only insufficient but also uncomfortable for the patients. Temporary repairs are being made now and then to improve the condition as much as possible.

7. *Shoeing forge.* It is to be regretted that the Society was obliged to close the forge as the farrier who was in our service has resigned his post owing to his old age and no substitute can be had till now even in spite of our publications in several papers.

8. *Obligations.* Our thanks are due to the Government, the District Board the Municipal Council of Bellary for their contribution and to the generous minded gentlemen who their support, have enabled the society to carry on its work succe ly.

G. SEETHARAMA CHETTY,
Hony. Secretary S. P. C. A. Bellary.

Bellary, } G. SEETHARAMA CAETTY
Hon. Secretary.

A few rules for the treatment of Animals.

1. No one has a right to keep animals, either for use or for pleasure, unless he is able and willing to provide them with whatever is necessary for their health and happiness. Gentle and mild treatment is due to all animals.

2. The horses should be watered *before* feeding and fed at least twice a day on gram with a small quantity of bran, and an ounce of common salt; after which a liberal quantity of grass should be given. The horse gram (kultee) should be well washed and cleaned before boiling. If the grass be green, it should be dried in the sun for a few hours.

3. An abundant supply of clean cool water for drinking should always be kept within the animal s reach.

4. A working horse should be allowed to roll on the grass or sand to remove any bodily pain. Recreation is necessary to make the animals happier:

5. They should be given exercise daily, morning and evening.

6. Look often at the animals feet and legs, because diseases or wounds in those parts, if neglected, soon become dangerous.

7. The shoes should be removed or changed once in three or four weeks, because the hoof is continually growing and any fault in the foot or shoe must be corrected at one

8. Never to trust a horse for shoeing in the hands of Nalband-quacks,, who take the hoofs to be blocks of wood and chop them to suit the size of the shoes they keep in stock, and drive the nails on as they like.

9. Advantages of hot shoeing over cold shoeing are numerous. A visit to the shoeing forge at the S. P. C. A. Veterinary Hospital, Bellary will convince any one, of the benefits of the most up-to date scientific methods employed there.

10. When a horse returns from a good drive or ride, the first thing is to walk him about till cool. The next thing is to groom him quite dry with a wisp of straw, so that the dust and sweat may be removed. Horses should be groomed twice a day. The legs especially require thorough rubbing.

11. Arabs and small ponies' hair should never be clipped. Only walers require clipping, and that should be done in summer only. Never allow the hair inside the ears of horses to be cut off, because they, as non-conductors of heat and cold, protect the ears by preventing the entrance of dust, particles of sand and insects etc.

12. The stable should be well ventilated and the floor should be thoroughly even as flat and level with a slight slope for drainage. Standing on uneven ground gives unnecessary strain to the tendons of the animals legs.

13. The animal should never be over-loaded.

14. Go slowly the last mile because the horse ought to get cool by degrees.

15. Cheer your horse now and then by your voice and a pat or two, because animals, like men, love coaxing.

16. When you wish your horse to go slower or to stop rect him so in words "Stop" and when you wish him to go fast give him the words "Go on" because by the use of these words of caution, he can understand your will and avoid the use of bit or whip.

17. When the animal is sick and suffering entrust him not in the hands of quacks, but consult a Vet. ever ready with his advice and assistance.

For such examination a fee of Rs. 8 is leviable in respect of item i. and a fee of Rs. 2 in respect of items ii and iii.

The whole of these fees to go to the Veterinary Officer.

10. Domiciliary treatment is allowed and the Veterinary Officer may charge Rs. 2 a visit.

11. *Horses are shod on the latest scientific methods, at moderate rates, by a farrier of long experience, under the Supervision of the Veterinary Surgeon. Hot and Cold shoeing and also special shoeing in cases of lameness, deformities vices &c. will be done. The shoes are made at the forge, of good suitable iron.*

BELLARY,
1st June 1911.

M. SRINIVASA IYENGAR
Honorary Secretary.

R. V. Press, Bellary.

WHAT TO DO?

Any cruelty witnessed, give the offender in charge of a Society's agent, or if no agent is by, to the first policeman who is bound to take cognisance of the complaint.

The Society's agents are sworn constables, and may arrest summarily and without warrant.

The Society's agent may be recognised by the badge S. P. C. A. worn on the collar.

If neither is by take **offender's** name and address **father's** name and **owner's** name and address, note the hour, and communicate with the Honorary Secretary of the Society.

The Society will take out summonses and prosecute and give you notice when the case will be heard, and your personal attendance will then be required, and only for a very short time.

You will incur no expense for summonses or prosecution.

It would always be better to secure another witness to the offence so that in the event of denial the case may be clearly established.

Any repeated acts of cruelty please report to the Honorary Secretary, and *special* agent will be deputed to arrest.

Any information will always be most thankfully received.

HONORARY SECRETARY, S. P. C. A.,
BELLARY.

A Horse's Petition to his Driver.

Going up-hill, whip me not :
Coming down-hill, hurry me not ;
On level ground, spare me not ;
Of hay and corn, rob me not ;
Of clean water, sting me not ;
Of fresh air, deprive me not ;
To damp bed, subject me not ;
With brush and sponge, neglect me not
Fatigued or hot, wash me not ;
If sick or cold, chill me not ;
With bit and reins, jerk me not ;
When you are vexed, strike me not ;
When old and grey, despise me not ;
When past my labour, work me not ;
When sick and dying, leave me not :
And when dead, forget me not ;

A PRAYER.

To Owners Drivers of Thousands of Horses Ponies, Bullocks and Dogs.

We, who have to carry or protect the property of our masters, humbly ask for a drink of water. During hot summer months we frequently suffer *great pain* from the want of this. Troughs fixed up in suitable places with a good supply of water, either from pumps or other water works, would help us on many a weary journey. Kind words and kind actions are never lost upon us. Gladden our spirits then, *with a drink of water.*

Management of the Vety. Hospital at Bellary

C No 735 C J from the Secy, S.P.C.A., Lr 9/4.2.21

To Under Secy,

The S.P.C.A, Bellary requests that the management of the Vety. Hospital at Bellary may be retained in its hands as before. The circumstances under which the Govt. have agreed to transfer the management from the S.P.C.A to the Municipal Council Bellary will be found in G.O. 2328 Rev dt 27-7-20. The Govt. have recently declined to reconsider their orders in connection with a mahazar petition from the people of Bellary vide G.O. 525 Rev dt 2.3.21. The Society itself now moves in the matter. It is submitted for orders whether the Govt. will reopen the matter.

KS
30.3.21

The meeting of the S.P.C.A which passed the Resn was attended even by our Moscan Collr of Bellary this endorsement on page 6 of C.P. may be referred to. Apparently the Hospital still continues under S.P.C.A, and effect does not seem to have been given to the order transferring it to the Municipality.

Either the Pt or the Resn does not

make mention of the circumstances which in-
duced a former General meeting of S.P.C.A to
hand over the Hospital to Municipality.

The S.P.C.A. enclosed its annual Report
for 1919-20. It shows that its financial positi
was fairly good.

1. Opening balance	800	6 3
2. Subscriptions	643	0 0
3. Magisterial fines	284	0 0
4. Contributions by (1) Dt. Board.	952	2 9
(2) Municipality	500	0 0
(3) Govt	360	0 0
5. Hospital receipts	817	8 5
6. Miscellaneous	34	1 11
Total	4391	11 5
Expenses	3143	12 4
Closing balance	1247	15 1

1.6-8-9
11-0
4-1-2
9-4
5 4

By effecting the transfer to Municipality
the following financial effects will ensue:-

(a) Item no 2 (subscriptions) will cease.

(b) Assuming the average expenditure to be
Rs 2000/ per annum, Govt shall have to contri-
bute Rs 1500 in place of Rs 360, and the Dt.
Board Municipality shall have to pay
Rs 500 each, in place of the sums shown against
4(1) & 4(2) respectively.

But with a view to secure efficient manage-
ment of the institution & proper supervision by
the Supdt C.V.D, the order of transfer to

municipality were issued. In such an important town as Bellary, it is essential that a well-equipped, well-managed and up-to-date City Hospital should be maintained and these objects may not be possible to be secured so long as the institutions continues under the Honorary guidance backed up by sporadic donations + subscriptions. Perhaps, the Supdt. C.V.D may not have any further remarks to offer than those found in the records but up. The rules already issued may stand under the circumstances

5/ Kurl
31-3-21.

I see the original proposal of the Hon'ble Mr Hafiz Ismail Khan as President of the S.P.C.A. which was signed by me as Presidc

I see the G.O. v.p. 2 of G.O. 2328 dtd 27.9.20

I cannot find any record for applying any Government aid to by the Municipal Council under Section 60 of the C.D. Act, but Rs 3 must be paid

I have no objection in the matter of Government aid being paid to the Municipality for the Hospital

31/3

Box No. M.28
Bag
Cuttack 31-3-21
Accepted

I have no mind to reopen this question
It would appear that the arrangement was
originally agreed to by all the bodies concerned
and it was sanctioned in a G.O. as
recent as Sept 1920. But the fact that
the transfer to the Municipality would
involve the payment by Govt of a sum of
Rs 1500 a year in the place of Rs 360, that
is, of an additional annual amount
of Rs 1,140. is perhaps a circumstance
inviting reconsideration It would also
appear that Sandeman in 1917, Govt accepted
a resolution brought forward by Mr.
P. Swadow and agreed to contribute one
half of the cost of certain proposed improvements
of the Hospital. It is also stated that the Society
collected about Rs 600 and spent it on improvements
and the Society now promises to complete
these improvements if the management
is allowed to remain in its hands. I
do not know what these improvements
are and what they are expected to cost.
I do not also know whether Govt contributed any money towards these improvements
but we can ascertain. Meanwhile
I am inclined, on account of the two
circumstances above mentioned
to think of reopening the question, provided

5c.

the society guarantees that it will not ask for a larger grant than Rs 360 per year without at the same time reducing in any way, the efficiency of the hospital and also promises to complete the improvements within two years from this date. The Hospital can be taken over from the society at the end of two years if either of these two conditions has not been fulfilled by the society. As however there is a prior G.O. I think it desirable that this file should be circulated to

M_2 C_2 C_3 and H.E.

21.4.21

M_2 The veterinary hospital at Bellary is a unique institution. It reflects great credit on the sense of duty of the townsmen of Bellary towards the less favoured of their fellow creatures. To keep alive this sense of humanitarianism among the people of Bellary I wish the Bellary branch of the S.P.C.A. to go on with its activities. I would have no objection to reconsider the arrangement regarding the transfer of the management of the Bellary Veterinary Hospital to the municipality provided the S.P.C.A. continue to manage the hospital if the Corporation guarantees efficient management. M.

36

I would certainly hold the transfer in abeyance imposing the conditions indicated by Mr. Li Long & the Bellary public are willing to subscribe towards the maintenance of the hospital I would be a great pity to scrap these institutions and destroy their interest in the institutions

5.5.21

I agree to the suggestion of my Hon'ble Colleague No 3, subject to the two conditions specified by him

6.5.21
